

Open Evening 2023

Pathways and experiences to suit all individual needs and aspirations

Our aim:

To create a platform for students to allow them to transition from a school setting into an aspirational destination.

Giving students the support to transition with confidence in to sixth form education

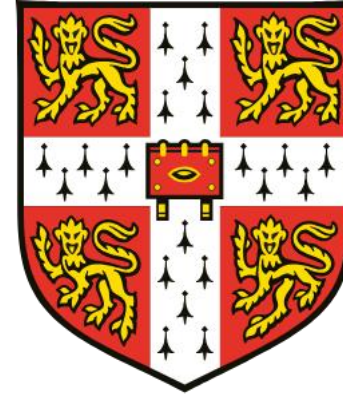

*Providing a structure
of high expectation to
support students in
achieving highly*

*Developing students
holistically to prepare
them to be successful
in their next steps*

Student Successes

Effort **DETERMINATION** to do everything possible

Student Successes

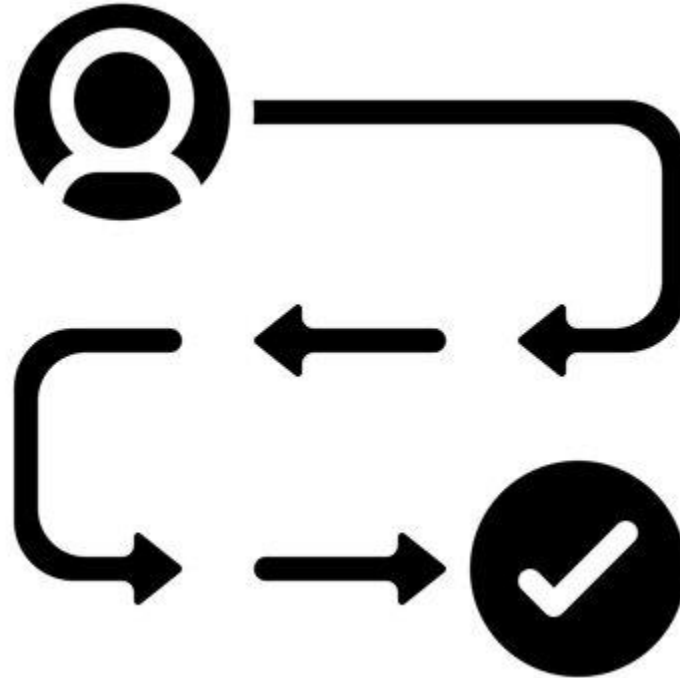

Clear **VISION** learn from mistakes

High **AMBITION** use his passion to make up the difference

Effort **CONFIDENCE** from support

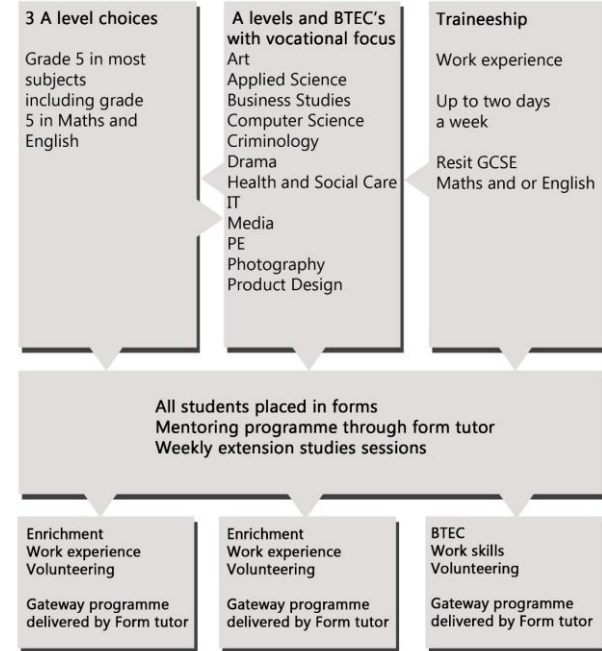

The journey of our head students

Deciding what to study at sixth form

- 3 subjects (application can include 4)
- Consider prior success, enjoyment and relative importance to career path
- Can be a **combination** of A levels and Applied General qualifications (BTECs, Cambridge Technicals etc)
- Understanding how these qualifications are assessed is highly useful.

A course that suits you A6

Students can select any subject but you must achieve the entry requirement.

All courses run for two years apart from the Traineeship which is one year.

All students have three subject choices (some students may follow four often by choosing further Maths).

All applicants have a guidance meeting with a member of the Sixth Form team to discuss the suitability of their option choices.

*A levels with
significant exam
assessments*

- Biology
- Chemistry
- Computer Science
- Economics
- English Language
- English Literature
